

Innovative Business Solutions

CANON DIGITAL COPIERS

Canon Multifunction Devices streamline document workflow in your office network by combining copy, print, scan, send and fax functions into a single integrated system. In addition, Canon manufactures large format printers that deliver both superb photographic image quality and outstanding print speed. These printers, paired with Canon's easy-to-use poster-design software, enable users to quickly create eye-catching, high-quality prints for applications ranging from office or school notices to restaurant menus.

FUNCTIONS

- Access documents from the cloud
- Print from your laptop or iPad®
- Scan from your laptop or iPad®
- Track and control color prints
