Innovative Business Solutions

MANAGED PRINT SERVICES

Our Total Print Management program is an all-in-one printer fleet management solution, providing everything but paper and power. First, our print management experts work to understand your entire print environment. Then, using our robust analytics program, we create a solution to ensure the highest possible return on your print investments. With our Managed Print Services Program, you can rely on one partner to manage your printing and imaging environment, from procurement all the way through replacement. We partner with Canon, Savin and DocuWare so that we can provide multifunction printers and document management solutions to meet all of your printing needs.

FUNCTIONS

- Save on printing costs
- Improve productivity
- Consolidate & standardize printers
- Quarterly review of usage and costs

Managing printing means that we can provide the necessary print and copy functionality at a lower cost to your business.

HIGHLIGHTS & BENEFITS

- Print fleet Assessment and Optimization
- Analytics provide insight into your print environment
- Identify opportunities to maximize efficiency
- Accurately collect data about page counts
- Automatically collect supply status and the health of each printing unit
- Proactively monitor your printer toner levels and automatically order refills
- Printer maintenance and support
- Consolidated invoices for toner, supplies, service, parts and maintenance
- Printer installation assistance
